Envision Composite Decking rated by

CR Consumer Reports®

Top Ranked Composite Decking of 2025

Decking That Is...

19% STRONGER

61% LESS MOISTURE ABSORPTION

25% BETTER TRACTION

43% THICKER CAP

*Compared to average leading competitor full profile boards.

Designed for *Style*.
Built for **Performance**.

For more than 25 years, we have been helping people create the outdoor space of their dreams. Our manufacturing processes and quality standards ensure the Envision decking and railing products you choose for your new outdoor space not only provide unmatched character and style, but they also offer performance you can trust.

COMPRESS TECHNOLOGY™

Compression molded, not extruded, to create decking that's dense, strong, and engineered to last.

EVERGRAIN CORE™

Less moisture absorption and resistant to splitting, splinters, insects, and rot.

UNMATCHED BEAUTY & STYLE

Deep, non-repeating grain and striking colors make each board truly unique, emulating exotic hardwoods.

SIGNIFICANT DESIGNS

Four materials designed to meet the needs of any architectural style, environment, or application.

SMART SOLUTIONS

Products engineered to the highest quality standards ensure a stunning and safe outdoor space.

VERSATILE OPTIONS

Hundreds of possible combinations enable inspired design to exceed expectations.

TRI-LAYER™ TECHNOLOGY

Crafted using a composite foam technology process, Traditional Composite is made with much thicker profile walls than traditional vinyl or PVC products.

1 OUTER LAYER
is made from durable cap stock for an attractive look that is weather resistant and low maintenance.

2 MIDDLE LAYER
is an innovative composite wood and foam core that adds stiffness.

3 INTERIOR LAYER
is formulated for impact resistance, offering a protective and sturdy base.
